WORK EXPERIENCE

The House, Inc.

Operations Intern

Woodbridge, VA

July 2025 – August 2025

- Assisted in managing a team of 15 volunteers and employees by assigning tasks, tracking progress, and supporting daily operations.
- Developed financial goals and targets by analyzing donation trends, the financial well-being of target organizations, and income from state and local grants.
- Optimized workflow efficiency through real-time problem-solving and clear cross-functional communication.

Lowe's Companies, Inc.

Retail Sales Associate, Garden & Outdoor

Knoxville, TN

April 2024 – November 2024

- Assisted customers in the garden and outdoor section by providing product knowledge and recommendations to support purchase decisions.
- Operated a forklift to transport and stage inventory, maintaining an organized and hazard-free outdoor department.
- Upheld safety protocols and store standards in a high-traffic retail environment with zero workplace incidents.

Firebirds

Server

Gainesville, Virginia

May 2023 – January 2024

- Delivered high-quality dining experiences by efficiently managing 4-10 tables, ensuring timely and accurate service.
- Suggested menu items based on guest preferences, increasing upselling opportunities and overall customer satisfaction.
- Coordinated with kitchen and service staff to enhance workflow and maintain seamless restaurant operations during peak hours.

Landini Brothers

Server

Alexandria, Virginia

June 2022 – August 2022

- Provided exceptional service in an upscale dining setting by attentively managing guest needs and special requests.
- Demonstrated expert menu knowledge to recommend food and wine pairings, increasing customer satisfaction.
- Maintained high service standards in a fast-paced environment, ensuring repeat patronage.

Rockwood Bar and Grill

Busser & Server

Gainesville, VA

August 2020 – June 2021

- Maintained a clean and welcoming dining area by efficiently resetting tables and assisting guests with requests.
- Promoted to server after demonstrating strong knowledge of the menu and excellent customer service skills.
- Managed a high-volume section, ensuring timely service and enhancing the guest experience.

TECHNICAL SKILLS

- **Tableau** - Built dashboards to visualize key metrics and business trends; applied in multiple academic projects focused on reporting and communication with non-technical audiences.
- **Alteryx** - Streamlined data preparation and automation tasks to support accurate, efficient analysis and reporting

- **R & RStudio** - Used for statistical analysis, trend identification, and pattern recognition in support of data-driven business decisions
- **JMP** - Applied in experimental design and data analysis for course projects; used to validate insights and support quality decision-making
- **Excel & Office 365** - Proficient in organizing, cleaning, and analyzing large datasets; skilled in using formulas, pivot tables, and visualizations to support cross-functional reporting
- **Power BI** - Introductory knowledge with ongoing learning; familiar with dashboard concepts and integration with Excel and business data
- **Stata** - Utilized in academic projects for regression and data manipulation, supporting analytical research and reporting
- **HTML** - Basic understanding used to format and structure web-based content for reporting and presentation purposes
- **SQL** - Used to query, clean, and join large datasets across multiple tables; applied in academic projects to build relational databases, perform exploratory analysis, and support data-driven decision-making with efficient data extraction

LEADERSHIP EXPERIENCE

United States Naval Academy Leadership Program

Attendee

Annapolis, Maryland
June 2018
